

ACCEPTABLE USE POLICY FOR LAMAR R-I SCHOOL DISTRICT

The Lamar R-I School District recognizes the educational and professional value of electronics-based information technology, both as a means of access to enriching information and as a tool to develop skills that students need.

The district's technology exists for the purpose of maximizing the educational opportunities and achievement of district students. The professional enrichment of the staff and Board and increased engagement of the students' families and other patrons of the district are assisted by technology, but are secondary to the ultimate goal of student achievement.

Use of technology resources in a disruptive, manifestly inappropriate or illegal manner impairs the district's mission, squanders resources and shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to the district's technology resources. Development of students' personal responsibility is itself an expected benefit of the district technology program.

Student Users

No student will be given access to the district's technology resources until the district receives a user agreement signed by the student and the student's parent(s), guardian(s), or person(s) standing in the place of the parent.

Employee Users

No employee will be given access to the district's technology resources before the district has a signed User Agreement on file. Authorized employees may use the district's technology resources for reasonable, incidental personal purposes as long as the use does not violate any provision of district policies, regulations or procedures, hinder the use of the district's technology for the benefit of its students or waste district resources. Any use that jeopardizes the safety, security or usefulness of the district's technology is considered unreasonable. Any use that interferes with the effective and professional performance of the employee's job is considered unreasonable.

Because computers are shared resources, it is not appropriate for an employee to access, view, display, store, print or disseminate information via district resources, including e-mail or Internet access, that students or other users could not access, view, display, store, print or disseminate without authorization by the district.

General Rules and Responsibilities for all users (Student and Employee)

1. Applying for a user ID under false pretenses is prohibited.
2. Using another person's user ID and/or password is prohibited.
3. Sharing one's user ID and/or password with any other person is prohibited. A user will be responsible for actions taken by any person using the ID or password assigned to the user.
4. Deleting, examining, copying or modifying files and/or data belonging to other users without their prior consent is prohibited.
5. Mass consumption of technology resources that inhibits use by others is prohibited.
6. Unless authorized by the district, non-educational Internet usage is prohibited.
7. Use of district technology for soliciting, advertising, fundraising, commercial purposes or for financial gain is prohibited, unless authorized by the district.
8. Accessing fee services without permission from an administrator is prohibited. A user who accesses such services without permission is solely responsible for all charges incurred.
9. Users are required to obey all laws, including criminal, copyright, privacy, defamation and obscenity laws. The school district will render all reasonable assistance to local, state or federal officials for the investigation and prosecution of persons using district technology in violation of any law.
10. Accessing, viewing or disseminating information using district resources, including e-mail or Internet access, that is pornographic, obscene, child pornography, harmful to minors, obscene to minors, libelous, pervasively indecent or vulgar, or advertising any product or service not permitted to minors is prohibited.
11. Accessing, viewing or disseminating information on any product or service not permitted to minors is prohibited unless under the direction and supervision of district staff for curriculum-related purposes.
12. Accessing, viewing or disseminating information using school or district resources, including e-mail or Internet access, that constitutes insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence, defamation of character or of a person's race, religion or ethnic origin); presents a clear and present likelihood that, because of their content or their manner of distribution, they will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities; or will cause the commission of unlawful acts or the violation of lawful school regulations is prohibited.
13. Any use that has the purpose or effect of discriminating or harassing any person or persons on the basis of race, color, religion, sex, national origin, ancestry, disability, age, pregnancy or use of leave protected by the Family and Medical Leave Act or the violation of any person's rights under applicable laws is prohibited. See policy AC and regulation AC-R.
14. Any unauthorized, deliberate or negligent action that damages or disrupts technology, alters its normal performance or causes it to malfunction is prohibited, regardless of the location or the duration of the disruption.

- 15. Users may only install and use properly licensed software, audio or video media purchased by the district or approved for use by the district. All users will adhere to the limitations of the district's technology licenses. Copying for home use is prohibited unless permitted by the district's license and approved by the district.
- 16. At no time will district technology or software be removed from the district premises, unless authorized by the district.
- 17. All users will use the district's property as it was intended. Technology or technology hardware will not be lifted, moved or relocated without permission from an administrator. All users will be held accountable for any damage they cause to district technology resources.
- 18. All damages incurred due to the misuse of the district's technology will be charged to the user. The district will hold all users accountable for the damage incurred and will seek both criminal and civil remedies, as necessary.

Privacy

A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving the district's technology resources.

All district technology resources are considered district property. The district may maintain or improve technology resources at any time. The district may remove, change or exchange hardware or other technology between buildings, classrooms, employees, students or any other user at any time without prior notice. Authorized district personnel may load or delete new programs or information, install new equipment, upgrade any system or enter any system to correct problems at any time.

The district may examine all information stored on district technology resources at any time. The district may monitor employee and student technology usage. Electronic communications, all data stored on the district's technology resources and downloaded material, including files deleted from a user's account, may be intercepted, accessed or searched by district administrators or designees at any time.

Content Filtering and Monitoring

The district will monitor the online activities of minors and operate a technology protection measure ("filtering/blocking device") on the network and/or all computers with Internet access, as required by law. The filtering/blocking device will be used to protect against access to visual depictions that are obscene, harmful to minors and child pornography, as required by law. Because the district's technology is a shared resource, the filtering/blocking device will apply to all computers with Internet access in the district. Filtering/Blocking devices are not foolproof, and the district cannot guarantee that users will never be able to access offensive materials using district equipment. Evasion or disabling, or attempting to evade or disable, a filtering/blocking device installed by the district is prohibited.

The superintendent, designee or the district's technology administrator may disable the district's filtering/blocking device to enable an adult user access for bona fide research or for other lawful purposes. In making decisions to disable the district's filtering/blocking device, the administrator shall consider whether the use will serve a legitimate educational purpose or otherwise benefit the district.

Violations of Technology Usage Policies and Procedures

Use of the district's technology resources is a privilege, not a right. A user's privileges may be suspended pending an investigation concerning use of the district's technology resources. Any violation of district policies, regulations or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user privileges.

The administration may use disciplinary measures to enforce district policies, regulations and procedures. Employees may be disciplined or terminated, and students suspended or expelled, for violating the district's policies, regulations and procedures. Any attempted violation of district policies, regulations or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation.

Damages

All damages incurred by the district due to the misuse of the district's technology resources, including the loss of property and staff time, will be charged to the user. District administrators have the authority to sign any criminal complaint regarding damage to district technology.

The district's complete policy may be accessed at www.lamar.k12.mo.us under:

District Office → Board Policy → Section E – Support Services → EHB – Technology Usage & EHB – R – Technology Usage

As a user of the Lamar School District network, I agree to comply with the complete Technology Usage Policy available on the web page listed above or by contacting the district Technology Coordinator at (417) 682-3527.
