Assistant Superintendent for
Curriculum, Instruction and Administration

Kimberly Maloy-White
Assistant Superintendent for Human
Resources

May 13, 2022

Dear South Brunswick Community,

Over these past few weeks, we have been monitoring our increasing COVID positivity trends among both students and staff.

We cannot stress enough that if anyone in your household is sick, even with what appears to be seasonal allergies, please have your school aged children tested for COVID before sending them to school. By doing so, you will help us to continue to keep our classrooms open. Please note that if there is a [COVID positive within a household](#), all siblings must be excluded from attending class in-person.

If you need a rapid testing kit for your child, please contact your school nurse. One will be provided to you free of charge. Masks continue to be available in our schools for anyone who needs one.

As we approach the end of the school year, we know that there are many large end of year events that are scheduled. Please note that we are planning to continue to have these events in person, but each large event will be reviewed to see if full capacity would create the “smush rule”. I use the term “smush” when there is a large amount of people in a small area. We will continue to monitor the numbers and will mask if necessary for any of these events.

Thank you to the entire South Brunswick school community for your continued assistance in keeping our schools open. I must remind you that our nurses are here to protect your children and our staff. Please be respectful to them when they reach out to you. We know that when they call you, it might be news that you don’t want to hear, but they are just doing their jobs and taking care of us all.

We are in the home stretch and together we can contribute to a safe end of the school year.

Sincerely,

A handwritten signature in black ink, appearing to be 'Scott Feder', with a horizontal line extending to the right.

Scott Feder
Superintendent of Schools
