October 14, 2021

Dear Monmouth Junction Families,

I am pleased to share the great news that Monmouth Junction School has ranked number 10 in New Jersey according to US News and World Report’s inaugural publication of the BEST K-8 schools in the United States.

In New Jersey, 1630 K-8 schools were included in the study. Again, I want to thank our faculty, staff, students and families for their contribution to this outstanding recognition.

I found the article below very interesting, so I am sending the link to you.
