The Board of Education recognizes that a student’s abuse of harmful substances seriously impedes that student’s education and threatens the welfare of the entire school community. The Board is committed to the prevention of substance abuse and the rehabilitation of substance abusers by educational means, but will take the necessary and appropriate steps to protect the school community from harm and from exposure to harmful substances. Accordingly, the Board will establish policies and procedures in operating programs to support the social, emotional, and physical development of students in accordance with the provisions of N.J.S.A. 18A:40A-1 et seq. and N.J.A.C. 6A:16-4.1 et seq. The Board of Education will maintain a comprehensive substance abuse intervention, prevention, and treatment referral program in the schools of this district. It is the goal of the district to ensure the safety, to deter the use, possession, and/or distribution of substances, and to provide support to students when a need is identified through an assessment or evaluation.

Identification, Evaluation, and Intervention

N.J.A.C. 6A:16-3.1; 6A:16-4.1; 6A:16-4.2; 6A:16-4.3

Any educational staff member or other professional to whom it appears that a pupil may be under the influence of a substance on school grounds, including on a school bus or at a school-sponsored function shall report the matter in accordance with N.J.A.C. 6A:16-4.3(a)1. Additionally, students in possession of suspected CDS (Controlled Dangerous Substance) or ENDS (electronic nicotine delivery systems) will be suspected of being under the influence and subject to this policy, as described below.

An immediate urine screening and medical evaluation shall be conducted and a written report of the medical evaluation shall be furnished to the parent(s) or legal guardian(s) of the pupil, the Building Principal, and the Superintendent in accordance with N.J.A.C. 6A:16-4.3(a)2 - 4.3(a)8.

If the written report of the urine analysis is not provided within twenty-four hours of the referral of the pupil, the pupil shall be allowed to return to school until such time as a positive determination of alcohol or other drug use is received from the physician.

If the written report of the medical evaluation verifies that alcohol or other drugs do not interfere with the pupil’s physical or mental ability to perform in school, the pupil shall be immediately returned to school. A copy of the written medical evaluation indicating the pupil can return to school shall be provided to Building Principal. If there is a positive determination from the medical evaluation indicating the pupil’s substance use interferes with his or her physical or mental ability to perform in school, attendance at school shall not resume until a written report verifies the pupil’s substance use no longer interferes with his or her physical and mental ability to perform in school.
Upon receiving the results of a positive urine analysis, the district shall contact the parent, the pupil shall be returned to the care of the parent(s) or legal guardian(s) as soon as possible and move forward with disciplinary and restorative practices to support the pupil, address substance abuse and focus on rehabilitation. The pupil is required to actively engage in restorative practices identified by the administration and counselors.

Removal of a pupil with a disability shall be in accordance with N.J.A.C. 6A:14.

While a pupil is at home because of the medical evaluation or a positive urine analysis or after the pupil returns to school, an appropriately certified school staff member(s) will conduct an alcohol and other drug assessment of the pupil and a reasonable investigation of the situation and may initiate referral alcohol or other drug abuse treatment in accordance with N.J.A.C. 6A:16-4.3(a)12, 4.3(a)13, and 4.3(a)14.

 Whenever any teaching staff member, certified or non-certified school nurse, or other educational personnel shall have reason to believe a pupil has used or may be using anabolic steroids, that person shall report the matter in accordance with N.J.A.C. 6A:16-4.3(b)1.

The Building Principal or designee upon receiving such report shall immediately notify the parent(s) or legal guardian(s) and Superintendent and shall arrange for an examination of the pupil as soon as possible to determine whether the pupil has been using anabolic steroids in accordance with N.J.A.C. 6A:16-4.3(b)2.

The Superintendent will disclose to law enforcement authorities the identity of the pupil pursuant to the requirements of N.J.A.C. 6A:16-4.3(b)3.

A written report of the examination shall be provided by the examining physician to the parent(s) or legal guardian(s), Building Principal, and Superintendent.

If it is determined the pupil has used anabolic steroids, an appropriately certified school staff member(s) shall interview the pupil and others to determine the extent of the pupil’s involvement with and use of anabolic steroids and the possible need for referral for treatment in accordance with N.J.A.C. 6A:16-4.3(b)5.

If the results of a referral for evaluation have positively determined the pupil’s involvement with and use of anabolic steroids represents a danger to the pupil’s health and well-being, an appropriately certified school staff member(s) shall initiate a referral for treatment to agencies and/or private practitioners as outlined in N.J.A.C. 6A:16-4.3(b)6.
In-Service Training    N.J.S.A. 18A:40A-15(b)

The Board directs the Superintendent to develop a program of in-service training for all teaching staff members involved in the instruction of pupils. The Board will provide time for the conduct of the program during the usual school schedule. In-service training shall prepare teachers to instruct pupils on substance abuse and inform teachers about the nature of substances, the symptomatic behavior associated with substance abuse, the availability of rehabilitation and treatment programs, the legal aspects of substance abuse, and Board policy and regulations on substance abuse.

N.J.A.C. 6A:16-4.1(c)7.

The Board will provide an outreach program to parent(s) or legal guardian(s) of pupils that includes information on the district’s substance abuse curriculum, the identification of substance abusers, and rehabilitation organizations and agencies. The Superintendent is directed to develop the program in consultation with local agencies recommended by the Commissioner and to offer the program at times and in places convenient to parent(s) or legal guardian(s) on school premises or in other suitable facilities.

Records    §408 of the Drug Abuse Prevention, Treatment, and Rehabilitation Act, 42 U.S.C., and Implementing Regulations, 42 CFR Part 2

Notations concerning a pupil’s involvement with substances may be entered on his/her records, subject to Policy No. 8330 regarding confidentiality and limited access. All such notations shall be expunged when they are no longer required for the counseling or discipline of the pupil or when the pupil leaves school. Information regarding a pupil’s involvement in a school intervention or treatment program shall be kept strictly confidential in accordance with §408 of the Drug Abuse Prevention, Treatment, and Rehabilitation Act, 42 U.S.C. 290 ee-3, and implementing regulations, 42 CFR Part 2.

If an elementary or secondary pupil involved in a school-based drug or alcohol counseling program provides information during the course of a counseling session in that program which indicates that the pupil’s parent(s) or legal guardian(s) or other person residing in the pupil’s household is dependent upon or illegally using a substance as that term is defined in N.J.S.A. 18A:40A-9, that information shall be kept confidential and may be disclosed only with the pupil’s written consent, to another person or entity whom the pupil specifies in writing in the case of a secondary pupil, or to a member of the pupil’s immediate family or the appropriate school personnel in the case of an elementary pupil; pursuant to a court order; to a person engaged in a bona fide research
purpose, except that no names or other information identifying the pupil or the person with respect to whose substance abuse the information was provided, shall be made available to the researcher; or to the Division of Child Protection and Permanency or to a law enforcement agency, if the information would cause a person to reasonably suspect that the elementary or secondary pupil or another child may be an abused or neglected child.

The Board will lend to pupils attending nonpublic schools located in this district and to the parent(s) or legal guardian(s) of such pupils educational materials on substance abuse prepared and supplied by the Commissioner. The loan of such materials shall be at no cost to the district.

                          N.J.A.C. 6A:16-4.3(c)

No civil action of any kind shall lie against any employee, officer or agent of the Board because of actions taken under the education statutes on substance abuse, N.J.S.A. 18A:40A-1 et seq., provided the skill and care given is that ordinarily required and exercised by other such employees, officers and agents of the Board.

Any educational or non-educational school staff member who in good faith reports a pupil to the Building Principal or designee in compliance with N.J.A.C. 6A:16-4.3 shall not be liable in civil damages as a result of making such a report, as specified in N.J.S.A. 18A:40A-13 and 14.

Reporting Pupils to Law Enforcement Authorities        N.J.A.C. 6A:16-6.3(a)

The Superintendent will not report pupils who have voluntarily sought treatment or counseling for a substance abuse problem provided the pupil is not involved or implicated in a current drug distribution activity.
The Superintendent or designee may, but need not disclose to law enforcement authorities the identity of a pupil suspected to be under the influence of alcohol and/or controlled dangerous substances, pursuant to N.J.A.C. 6A:16-4.3(a), or a pupil suspected to have used or who may be using anabolic steroids, pursuant to N.J.A.C. 6A:16-4.3(b), and who is referred for a medical evaluation, pursuant to N.J.A.C. 6A:16-4.3(a) or (b), as appropriate, for the purposes of providing appropriate health care for the pupil and for determining whether the pupil is under the influence of alcohol or other drugs or has been using anabolic steroids, provided the pupil is not reasonably believed to be in possession of a controlled dangerous substance or drug paraphernalia, and is not reasonably believed to be involved or implicated in drug distribution activities.
