Curie Elementary’s Vision Statement
A commitment to student and teacher learning is an expectation at Curie. The fundamental belief that every child can learn and will rise or fall to the level of our expectations is the driving force of our work. Engaging students in learning experiences that empower them to stretch their thinking in more complex ways and to become creators, innovators, and problem solvers as opposed to just consumers of information is a focus for Curie.

In our Curie community we strive to create a safe, innovative, and engaging learning environment. Students become critical thinkers and compassionate citizens who have a love for learning and persevere to achieve their personal best.

CLASSROOM PLACEMENTS AND TEACHER REQUESTS
The staff at Curie works hard to build equitable, balanced, and diverse classes across a number of factors including gender, race, academics, social-emotional needs as well as other factors. We appreciate your patience and understanding as this is a delicate and ever-changing process as enrollment shifts right up until the start of the school year. Class rosters are accessible via Powerschool Parent Portal the Friday or Saturday before the start of school. Please read the FAQ and use this guide to get started. Kindergarten families will be notified via email.

Classes are created based on district class size guidance:
Grades TK-3 have an average of 24 students per class
Grades 4-5 have no more than 35 students per class
There are no teacher’s aides provided in the classrooms

As a school policy, we DO NOT accept requests for specific teachers.

**Resolving Behavioral Challenges: A Framework**
The Parent/Guardian's Role
Parents are expected to cooperate with school authorities in maintaining and encouraging proper standards of behavior for their children. The following points for parents may prove helpful:

- Instill in your child a sense of responsibility for what he/she says or does.
- Help your child understand the necessity of personal safety.
- Make sure you communicate with school personnel to learn necessary facts and expected behavior.
- Show love and respect for learning as a model for your children.
- If a parent is in disagreement with a process or action in the classroom, we ask that you first speak with the teacher or staff member directly before bringing forth the concern to administration.

The Classroom Teacher's Role
The classroom teacher is responsible for establishing and maintaining a suitable learning environment and community whereby all students can learn. Parents/guardians will receive an explanation of the system for their child’s classroom at the beginning of the school year. Each teacher will send home information about their classroom rules and procedures. We encourage all families to review these expectations with your child. We know that learning can be enhanced when students are engaged and when parents support their children in school. We strive at establishing and maintaining a close relationship between the home and school.

When an Issue Arises In the Classroom
- The teacher will employ the classroom community system which will include the use of various strategies and techniques to resolve the problem.
- If the problem continues, the teacher will contact the parent/guardian and collaborate on a plan to support the child. A parent conference may be requested.
- If the problem persists, they may involve the counselor or principal for support.
- Parent conference meetings will be scheduled as needed and include various team members as needed. The team offers a forum where school support personnel, i.e.; counselor, teacher, administrator and parent/guardian, have a conference and collaborate extensively to support any issue that may arise.
- If the problem persists, other alternative disciplinary action may be taken following established district guidelines.

The District Counselor’s Role
The district counselor is an integral part of supporting students at our school. The counselor’s role is to act as student advocates who listen to problems, counsel children, and assists in resolving conflicts or problem behavior using district approved guidance strategies. A counselor will be on campus three days per week.

The Administrator’s Role
Our school administrator is a partner in supporting students. If a challenging situation or behavior persists, the administrator may be called upon to support. Also, in rare cases of serious issues, such as the list below, the administrator will be contacted immediately.

1. Harming or threatening to harm another student.
2. Possession of any firearms, knife, explosive or other dangerous objects.
3. Possession of drugs, drug paraphernalia, tobacco or alcohol.
4. Stealing, vandalism or damage to school property.

BICYCLE POLICY
The San Diego Police Department requests that only students in grades four and above ride bicycles to school. Although the school has designated the bike rack for students to park bicycles, the San Diego Unified School District is not responsible for theft, damage, or loss of use to any bicycle, equipment or article left in or around this area.
● All bicycles should have locks and licenses. Students are urged to secure their bicycles in an appropriate manner by using a quality lock and chain or other devices.
● Helmets are required by California law. Students not wearing helmets may lose the privilege of parking a bike on school grounds. As defined in Vehicle Code Section 21212, any person under 18 years of age must wear a properly fitted and fastened helmet when riding a bicycle, scooter, skateboard, or when wearing in-line or roller skates. Helmets must also meet the standards of either the American Society for Testing and Materials (ASTM) or the United States Consumer Product Safety Commission (CPSC).

CELL PHONES/SMART DEVICES
Students are permitted to use cell phones before and after school but not during the school day. Cell phones and other smart devices such as smart watches must be powered off during the instructional day. Curie is not responsible for cell phones that are damaged, lost or stolen. If a student is found using a cell phone or smart device from home during the instructional day, it will be taken and parent/guardian will be notified by the teacher to pick it up.

ELECTRONIC DEVICES
CD players, Game Boys, MP3 Players, gaming devices etc. are not allowed at school. When children bring such items to school we are not responsible if they are lost, stolen or damaged.

LOST AND FOUND
Articles can usually be traced and returned if they are marked with the owner's full name. Sack lunches, lunch boxes and removable garments are most often lost and should be plainly labeled with first and last names. Please urge your child to report his/her loss to the teacher promptly. Children and parents are encouraged to check the “Lost and Found” cart for lost articles. Unclaimed items are donated to community organizations.

FIELD TRIPS
Parents will be notified about field trips in advance and are asked to sign a permission slip. District policy will not allow the school to accept permission for field trips over the phone. Currently all in-person field trips are on hold due to COVID-19 until further notice.

TECHNOLOGY
Every student Tk-5 will be issued a chromebook and charger. Each child will use the same device for 3 years before a refresh. Proper care is critical to the maintenance and longevity of this learning tool.
  ● Any problems with the Chromebook will need to be handled by the Parent IT Department; please do not bring the Chromebook to the office to exchange. They will need to be exchanged through IT. More information found here: Chromebook Technology Support. Phone number for IT: (619) 732-1400.
  ● Having chromebook issues? Check out these Chromebook Troubleshooting Tips

In the event of an earthquake or other disaster, the safety of all students is our primary concern. All gates will be secured. Families will be directed to pick up children at the reunion gate. Please contact the office if you would like additional information regarding Curie’s Emergency Preparedness procedures.

In the event of a school lock down procedure, for their safety, children may only be released from their classrooms at the direction of the San Diego Police Department.

Safety Plan

A site safety plan has been developed for Curie Elementary School and all staff members receive continuous training in maintaining a safe and secure environment for students. Key components of this plan are as follows:

- Assessment of school crime and crime in the surrounding community
- Child abuse reporting procedure
- Disaster procedures (for both routine and emergency situations)
- Suspension and expulsion procedures
- Sexual harassment policy pursuant to the Ed. Code
- School wide dress policy

Safety Patrol

Safety Patrol is a group of 5th grade students who are trained and led by a San Diego Police Officer. Their goal is to ensure and support the safety of students and families walking and driving around our campus both before and after school. Safety Patrol members can be identified by their red Sweatshirts and/or T-shirts. Please be mindful of our Patrol members and adhere to their directions.
