How to get QB up and running

1. Make sure that you are using IE8 (internet explorer 8)
2. If your computer says IE8, then go to the Tools menu – click it – select internet options.
3. Select the Advanced tab - click it.
4. Scroll down to the Security section – find "Enable native XMLHTTP support" – put a checkmark in the box to the left of the message.

5. Click OK

6. Restart IE8 and log into QuickBooks Online again

Remember to call me with any questions. Thanks a bunch!!!
