

MAKING SPACE FOR CHANGE

ANIMAKER PRESENTATION

Due Monday, September 13th

Project Question

How can you redesign a public space to make it more accessible to the local community?

Project Description

In this project, you are charged with the task of redesigning a community space, such as a park, library, public square, empty lot, or community center, and make it more accessible and useful to the local community.

You will use Animaker to present your ideas. In Animaker, you can change characters, use voice overs, backgrounds, etc... to share your ideas in a mini movie.

Your Final Product

An Animaker presentation that is **4 to 5 MINUTES LONG**.

Your Task

Use the following Animaker website to create a storyline that answers the Project Question:

Website: <https://www.animaker.com/>

In your presentation, please include the following:

1. Introduce the space you plan to redesign. (Suggestion: Start with a short video of yourself on location introducing the space)

2. Share why you picked this particular space. Why does this space matter to you?
3. Explain the local context of the space. What function does this space play within the community at this time? (Suggestion: Include a short video or photos of the area surrounding the space)
4. Identify the current needs of the community. What services does the community currently need? (Suggestion: Include a quote from a local resident)
5. Explain your long-term vision for the redesign. What ideas do you have for this space? What is your vision? (Suggestion: Use a sketch or digital drawing to help us see your vision)
6. Identify the resources you would like available to you to redesign this space. What will you need to successfully complete your redesign?
7. Discuss possible constraints your redesign might face. What might prevent your project from moving forward and how might you overcome these obstacles?
8. Explain your outreach. How will the community hear about the newly redesigned space? How do you plan to let people in the community know about your redesign?

Submitting Your Presentation

After completing your presentation, please share your project with jleonar3@uhhsnyc.org by September 13th.

Please write the following in the subject line:

Making Space for Change, First Name, Last Name

Example: Making Space for Change, Cassandra Sanchez,

How May I Help

If you have any question, please feel free to email me at jleonar3@uhhsnyc.org

Please be patient with response times. I will have sporadic internet access during the month of August and will respond as soon as possible.

I look forward to working with all of you in September.

Please be well,

John Leonardo
