

Launchpad Information

Your students have many terrific web applications provided to them through NFMAA to help each student enrich his or her learning experience. Parents also have access through the internet to students' grades, test scores, textbooks, and AR information. There is an easy way for students and parents to access these websites. **Launchpad** has all the "apps" (similar to a phone or tablet) available in one place. Best of all, most of the apps will automatically sign in after the student initially signs into Launchpad using their username and password. This posting will provide you with specific information on how to access the Launchpad as well as a description of some of the applications and websites available to students and parents. There is also a Launchpad app to download called "**Lee County Schools LaunchPad**" that works exactly the same on most personal devices.

Launchpad Website: launchpad.leeschools.net

Single Sign-on Username and Password

(This is the same sign-on your student uses at school.)

A screenshot of a sign-in page with a dark blue background. At the top center is the Lee County Schools logo, a circular seal with a palm tree and the text "THE SCHOOL DISTRICT OF LEE COUNTY". Below the logo, the text "Type your user name and password." is displayed. Underneath, there are two input fields: "User name:" followed by a white text box, and "Password:" followed by a white text box with a small eye icon to its right. Below the password field is a blue button with the text "Sign In" in white.

Important Applications on Launchpad (For PARENTS and STUDENTS)

- **FOCUS K-12:** Focus K-12 will connect you to your child's schedule, grades, and test history. Test history if found by going to "My Information" and then "Progress Monitoring."

**FOCUS requires your child's email address to sign on. You must enter the student's email address in the USERNAME field. Each student's email address is their single sign-on username, and then finished with _____@students.leeschools.net (e.g., SJ12345@students.leeschools.net). After you have entered the email address, press the TAB button and the website will automatically finish signing you in.*

- **Google Apps folder:** This is a folder containing all of the Google Apps available to your child. There are many great ways that teachers and students can use Google Apps in the classroom. Google Classroom is one application that many teachers use to enhance your child's learning experience in and out of the classroom. This is where your child could interact electronically with their teacher. Another use is for students to simply type in Google Docs and then send them to the teacher. All you need to do to send a file is to look for the SHARE button in the top right corner and then search for the teacher's email address listed below.

**Students will need to use their email address to sign into a Google Classroom. Each student's email address is their single sign-on username, and then finished with _____@students.leeschools.net (e.g., SJ12345@students.leeschools.net). The password will be the same as their single sign-on password.*

***Sidenote: The email address in elementary is not an active email but one used only to log in.*

- **Safari Montage:** This is an application that has thousands of multimedia objects students can view. This learning object repository has educational movie clips for ages K-adult, PDFs, textbooks, and encyclopedias and more for students to access to reinforce learning.
- **Renaissance Home Connect (found under the “Instructional Apps” folder):** Renaissance Home Connects provides you with information on what AR quizzes your child is taking and how your child is performing on those quizzes. Depending on your web browser, you may need to install an extension before the “ClassLink OneClick” (automatic sign in) to take effect. Once you are signed in you can choose to have emails sent to you when your child takes a test.
- **OVERDRIVE (found under the “Instructional Apps” folder):** Did your child forget to bring an AR book home? Was the AR book not a good fit for your child? This app brings you to the Lee County Public School’s Digital Library. From here your child can search for and read library books at home without ever leaving the house!
- **Compass Learning (found under the “Instructional Apps” folder):** Compass Learning provides your child with their personalized math, reading, science, and social studies **learning** path that can be both monitored and manually altered by the teacher. You can also view your child’s Compass Learning portfolio to see how they are performing on assignments.
- **Pearson SuccessNet (found under the “Instructional Apps” folder):** Pearson SuccessNet is where your child’s reading resource, Reading Street, can be found. There are lessons that support the lessons in class throughout the week. Students can also get caught up when absent from school.
- **ThinkCentral (found under the “Instructional Apps” folder):** ThinkCentral will connect you to your child’s math textbook, extra math worksheets, math tools, and videos to help explain math homework.
- **HMH Central (found under the “Instructional Apps” folder):** HMH Central is also known as “Fast Math”. This is a fun website to help students master their math facts in addition, subtraction, multiplication, and division. Students will be moved on along as they master each set of facts.

- **myNGconnect (found under the “Instructional Apps” folder):** This link connects your child to National Geographic materials that teachers use for science. Students can visit this website to play a game, listen to a book, or watch a video about science.
