## Protocols for Controlling COVID-19

Students who are fully vaccinated and asymptomatic do not need to quarantine if exposed to a positive COVID-19 case. If vaccinated students are symptomatic or test positive, follow #2.

\* Per CDC, exposure is close contact of 6-feet or less for 15 minutes or more. This is cumulative in a 24-hour period.

\*\* A diagnostic COVID-19 test can be provided through a health care provider, clinic, pharmacy etc... If a home test is used it must have Emergency Use Authorization (EUA) from, or full approval by, the Food and Drug Administration (FDA) and the test should be used in the same manner specified by FDA's authorization or approval. Results should be sent to a laboratory, done through a mobile application, or monitored by a medical provider.
